EDUCATION

Audisankara College of Engineering and Technology   Gudur, Andhra Pradesh
Bachelor of Technology in CSE - AI   Mar 2021 – Apr 2025
CGPA: 8.21

Narayana Junior College   Tirupati, Andhra Pradesh
Intermediate in MPC   Apr 2019 – Mar 2021
Percentage: 96.2%

Srinivasa Teja High School   B.N.Kandriga, Andhra Pradesh
SSC   Apr 2018 – Mar 2019
CGPA: 9.5

SUMMARY

- Motivated Full Stack Developer with a strong foundation in Core Java (OOPs, Exception Handling, Multithreading, Collections Framework), Spring Boot, HTML, CSS, and SQL. Experienced in building responsive web applications and integrating RESTful APIs using the MVC architecture. Adaptable and quick to learn, with a passion for solving real-world problems and contributing effectively in dynamic team environments.

SKILLS

- **Technical Skills**
  - **Core Competencies:** Java, SQL, Python.
  - **Web Technologies:** HTML, CSS.
  - **Frameworks:** SpringBoot.
  - **Familiar with:** Code Optimization, Database Queries.
  - **Version Control:** GitHub .
  - **Software Design:** Object-Oriented Programming (OOP) .
- **Soft Skills**
  - Strong analytical reasoning and decision-making capabilities.
  - Good communication ability.
- **Languages**
  - Telugu, English, Hindi.

PROJECTS AND EXPERIENCE

- **Fake News Detection System** *(GitHub link)*
  - Developed a Flask-based web application to detect fake news from article URLs using web scraping and NLP.
  - Handled non-English headlines using Google Translator API and langdetect.
  - Implemented a machine learning pipeline using TF-IDF and Logistic Regression for classification.
  - Designed a user-friendly interface with HTML, CSS, and JavaScript for URL input and real-time results.
  - Tech Stack: Python, Flask, HTML, CSS, JavaScript, TF-IDF, Logistic Regression.
- **Food Delivery Application** *(GitHub link)*
  - Developed a full-stack pizza ordering web application with user-friendly order placement and real-time status tracking.
  - Implemented order persistence, customer management, and status updates using a structured MVC pattern.
  - Enabled dynamic order listing with pagination and admin-friendly controls for monitoring all transactions.
  - Optimized user flow from order input to confirmation, ensuring seamless database integration and status management.
  - Tech Stack: Java, Spring Boot, Spring MVC, Spring Data JPA, Thymeleaf, HTML/CSS, MySQL.

INTERNSHIP AND CERTIFICATIONS

- **Tap Academy – Full Stack Web Development**   May 2025
  Mastered Java, Spring, MySQL, and Frontend Development. Gained hands-on experience in OOP, Multithreading, Exception Handling, Collections Framework, and Java 8 features (Lambda Expressions) for building small scaled backend Applications.

ACCOMPLISHMENTS

- Successfully developed and deployed 2 full-stack web applications on GitHub.
- Actively contributed to code optimization and bug fixes in college-level projects.
- Built personal projects to strengthen development skills outside of academic curriculum.
